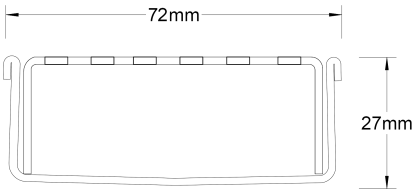
Linear Drain

Code 65MNDi25
Range 65
Grate Style MND
Category Modular Kits
Channel Material Stainless Steel
Steel Grade 316



Grates longer than 1500mm supplied in sections. Tile Inserts longer than 1200mm supplied in sections. Channels over 3000mm supplied in sections with joiner. +/-2mm tolerance on dimensions.

Modular drainage system with a stainless steel grate and stainless steel channel. A world first in architectural linear grates, the partnership with Marc Newson has created a new decorative solution for wet areas, incorporating Newson's signature tessellated hexagonal pattern. Please be aware that depending on the installation environment, for a pool installation or close to a surf beach, you may need to have your stainless steel grates electropolished.Lengths over 3000mm available on request.

Stormtech Modular Kits are supplied with grate and oversized channel to be cut down on site. One piece channel comes with pre punched spigot with outlet extender (kits up to 2000mm long). Oversized channel enables choice of outlet positions: centre, end or wherever preferred. Kits over 2000mm long and kits requiring multiple outlets are supplied with outlet on joiner plate. All kits are supplied with 2x clip-on end caps.
