VC100-42

Vinyl Clamp Drainage

Code VC100-42
Range Vinyl Clamp
Grate Style TR
Category Made-to-Length
Channel Material Stainless Steel
Steel Grade 316

Grates longer than 1500mm supplied in sections. Tile Inserts longer than 1200mm supplied in sections. Channels over 3000mm supplied in sections with joiner. +/-2mm tolerance on dimensions.

Stainless steel vinyl clamp drainage unit for use in a vinyl floor environment.

This innovative drainage product allows the use of a linear grate in a vinyl floor environment.

It is particularly well adapted for drainage needs in hospitals, commercial kitchens and schools. Designed specifically for vinyl floor environments, the VC range of drain units are manufactured from 316 marine grade stainless steel.

The vinyl clamp features a wedge wire architectural style grate and a stainless steel channel in which a screw down flange mechanically clamp the vinyl beneath. The VC100-42 has a 60 degree slope on the side walls, which reduce the stress on the vinyl and increase the life of the flooring surface.

Please be aware that depending on the installation environment, for a pool installation or close to a surf beach, you may need to have your stainless steel grates electropolished.

SPECIFICATIONS + DIMENSIONS

Channel Width	170mm
Channel Depth	42mm
Length(s)	As Required
Outlet Size	N/A

STORMTECH COLOUR FINISHES

Stainless Steel | Electropolished | Gunmetal Grey | Matte Black | Brass | Bronze | Copper

Electroplate finishes subject to natural variation with time and local environment. Factors such as pools/surf beaches may require electropolishing. Contact us for suitability.
